NOTICE FOR UG (3rd and 5th sem) STUDENTS

Dear Students,

With immense pleasure, Team CCC would like to inform you that our institute email service has been migrated from Zimbra to G-Suite. Our Email service is now running on a more robust and high available G-Suite service, which is nothing but adding a layer on top of Gmail so that you can log in using our institute email ID in Gmail. Your old Zimbra account if existing is still active, but can be accessed only via the institute network. You can only view and access your old emails in Zimbra. We will keep your Zimbra account active for the next 6 months.

There is an institute-wide policy change regarding email to fit our email accounts in the context of G-Suite service. So your email IDs have been changed so that we can fit them into the G-Suite acceptable format. The details of your new accounts will be mailed by the CCC team shortly from 18-Aug--2020.

You will get an email to your personal email ID to activate your G-Suite account. The link will **expire after 48 hours.** For any query and concern related to G-Suite email account, drop one email to "nits_ccc_helpdesk@nits.ac.in" 'G-Suite Email Account for UG Students' mentioning your name, scholar ID and year.

Best Wishes. Enjoy the service.

Thank You
Team CCC
